

## Leonard Refrigerators

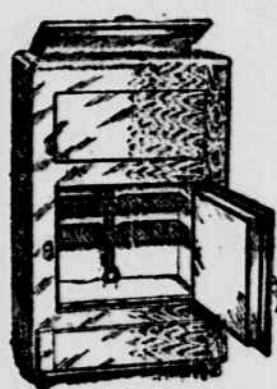

With Unbreakable One Piece Porcelain Linings.

The Seamless Porcelain-lined Leonard Refrigerators are the most sanitary, most durable and easiest to clean. The lining is as hard as steel, pure white, and easily wiped clean with a damp cloth. It will never crack, tarnish or corrode. It has no cracks, or joints or corners to harbor germs or odors. Leonard Seamless Porcelain Refrigerators are priced here as cheap as many inferior painted white enameled imitations.

**\$22.50**

Seamless Porcelain-lined Leonard Refrigerator, just like the above; height 42 inches, width 25 inches, depth 17 1/2 inches; case "satin walnut"; trimmings solid brass; nine walls of insulation to preserve the ice.

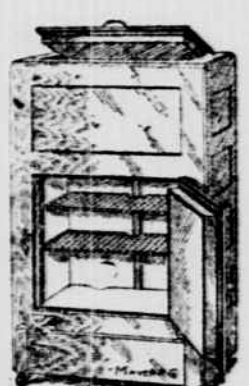

**\$32.75**

Seamless Porcelain-lined Leonard Refrigerator; case solid oak; twelve walls of insulation; width 29 inches, height 47 1/2 inches, depth 23 1/2 inches; ice capacity 135 pounds.

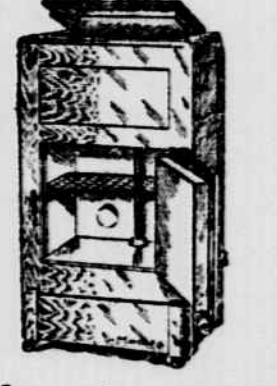

**\$41.75**

Regular \$50 Leonard Refrigerator, with ice capacity of 118 pounds; height 47 1/2 inches, width 37 inches, depth 22 inches; seamless porcelain lining; nine walls of insulation; outer case of "satin walnut"; trimmings of brass.

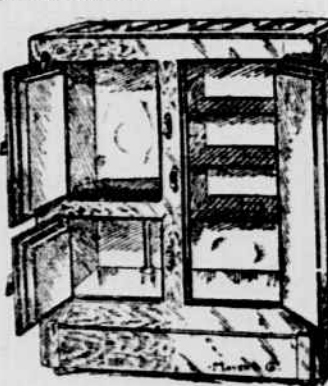

**\$9.98**

Genuine Ash Refrigerator, with panels of quartered oak; height 30 1/2 inches, width 22 inches, capacity 45 pounds ice; lined with pure zinc; all parts removable; seven walls of insulation.

**\$6.75**

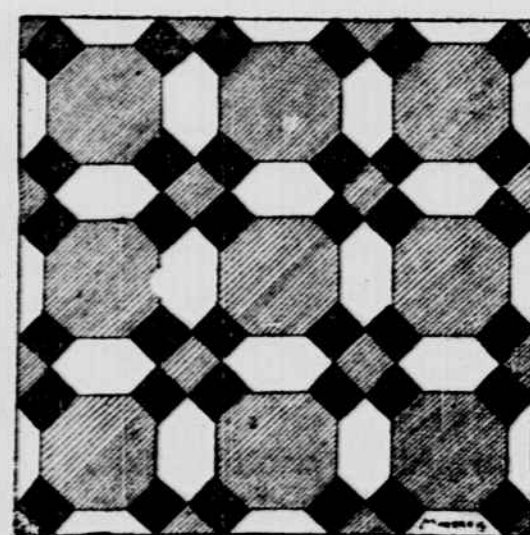

North Pole Hardwood Refrigerator, like above; case of ash, panels imitation quartered oak; ice capacity 35 pounds; height 30 inches, width 21 1/2 inches, depth 15 1/2 inches; lining galvanized steel; wire shelves.

**\$19.75**

North Pole Refrigerator, with ice capacity of 100 pounds; case of ash, panels imitation quartered oak, three shelves, galvanized lining, highly polished; height 45 inches, width 25 1/2 inches, depth 20 1/2 inches.

10% Discount on Accounts Closed in 30 Days.

## Baking Demonstration of the "Jewel" Fireless Cooker

All Day Monday and Tuesday.

Come in Monday or Tuesday and see our demonstrator baking with the "Jewel" Fireless Cooker. See how quickly and how thoroughly it browns biscuit, bread and pastry—how much it saves in work and in fuel in roasting, baking and all other kinds of cooking.

The "Jewel" Cooks Without Watching and With No Danger of Cooking Dry.

Breakfast cooks while you sleep and is steaming hot and ready to serve in the morning. The noon or evening meal can be cooking while you are out shopping and will be waiting for you, deliciously cooked, when you return. It cannot cook dry or burn.

The "Jewel" Is the Only Pure Aluminum-Lined Fireless Cooker.

Not only the utensils but every part of the "Jewel" Cooker is lined with pure aluminum. It cannot wear out from rust. It will not retain the tastes and odors from previous cooking. It is easily kept clean. It is a better retainer of heat than other metals, and makes for perfect work.

Try a "Jewel" Fireless Cooker at our risk. If it does not suit you, we will take it back.

"Jewel" Cookers Sold Subject to 15 Days' Trial.

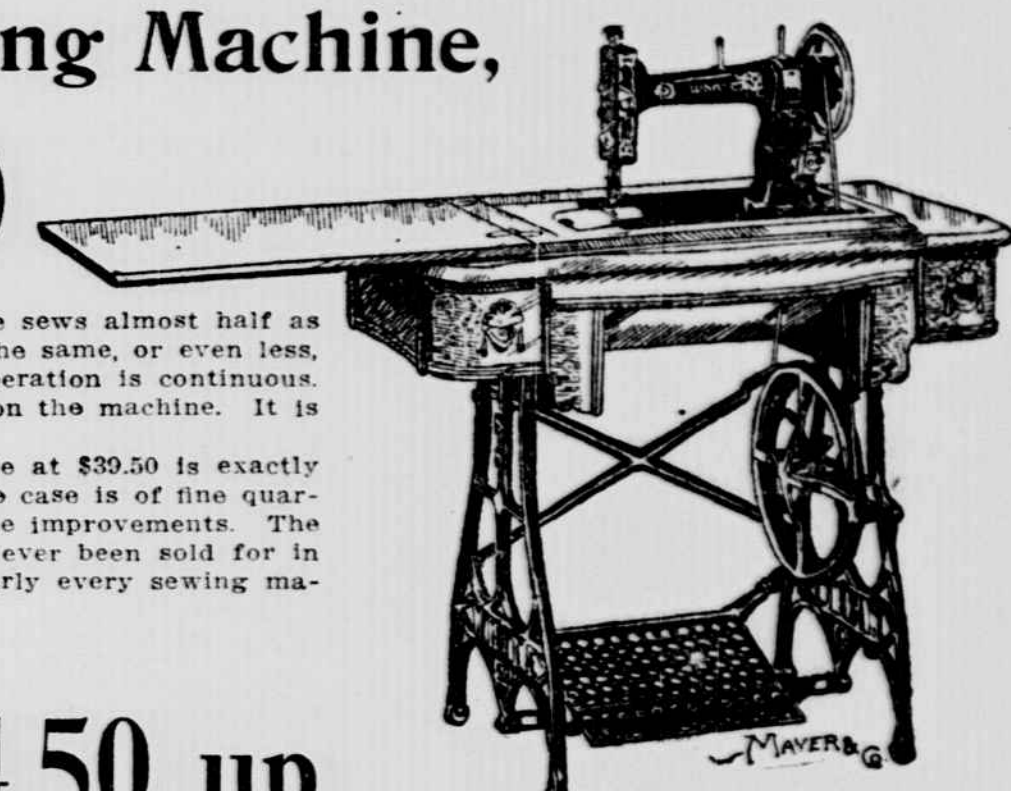

## Waists Braided Free All This Week.

Our demonstrator of White Sewing Machines will do all kinds of braiding free this week. The White does beautiful fancy work, embroidery, braiding, etc., and this demonstration is held with the idea of introducing its superiority to our patrons.

Bring your waist materials, pillow tops, centerpieces, etc., in and have them braided. If you furnish all the materials there is no charge whatever for the work. If it is more convenient we can furnish both braid and patterns (white only) at the prevailing store prices.

## This Automatic-Lift Drophead "White" Rotary Sewing Machine,

**\$39.50**

The White Rotary Sewing Machine sews almost half as much again as other machines with the same, or even less, effort. It is full ball-bearing. Its operation is continuous. There is no vibration to cause wear on the machine. It is almost noiseless in its operation.

This White Rotary Sewing Machine at \$39.50 is exactly like the illustration to the right. The case is of fine quartered oak. It has all the latest White improvements. The price is fully \$20.00 less than it has ever been sold for in Washington. It sells at \$60.00 in nearly every sewing machine store in the United States.

White Vibrating Sewing Machines . . . **\$34.50 up**

Attachments, Instructions and Embroidery Lessons Free.

## Try a "1900" Washer At Our Risk.

Wash day will have no terrors for you if you use a "1900" Washer. Ten minutes' time is all it takes to thoroughly cleanse a large tubful of clothes. The weight of the water and clothes in the tub actually helps do the work, making it exceptionally easy to operate.

Try a "1900" Washer at our expense. We are so confident it will please you we will gladly send one without a cent's deposit. You can use it 30 days and if you do not care to keep it just ask us to call, and we will send and get it back.

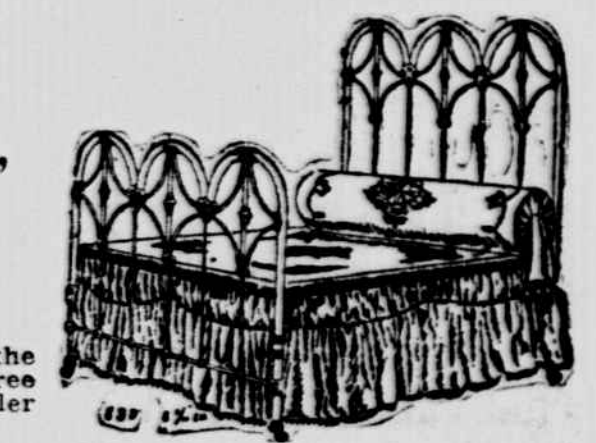

We Are Exclusive Agents.

In the suit that has been started by minority interests of the Osceola Mining Company to prevent the consolidation of the Calumet and Hecla and nine other copper mining companies. Counsel for the complainant were allowed a week in which to file briefs, after which another week will be allowed for the filing of briefs for the defense.

## Among the Schools

Despite the rapidly approaching close of the scholastic year numerous activities have been carried on in the schools during the week just past. Plays and entertainments have been given by the Business, Western and Eastern high schools, Washington Normal School, No. 1, and the Cleveland Park and Jefferson schools. Interest in the home and school associations still seems to be rapidly increasing.

Owing to the death of the brother of Capt. James P. Oyster, the meeting of the board of education for last Wednesday afternoon was postponed. It is expected that many matters of moment will be brought up at the meeting of the board when it next convenes.

Numerous picnics and outings have been planned by those within the school circles for Tuesday next.

The annual report of the board of education of 1906-1907 has been issued.

Miss Loss of the Public Library spoke

to the girls of the senior class of the Eastern High School last Thursday morning on library work. She described the nature of the work to them, its remuneration and advantages.

Lee Crandall gave a violin recital at the Central High School Wednesday morning. Several recitals have been given at the Central High School this year, and it is said, have been greatly enjoyed by both students and faculty.

Nearly a hundred persons were present at the first meeting of the Takoma Home and School Association held in the Takoma School recently. A program of addresses and music was given, and a general discussion of matters of school interest followed.

The president of the association, Dr. W. W. Stackberger, appointed the following committees: Legislative, H. F. Taff, chairman; J. W. Dyre, S. H. Carr, George S. Wilson and Henry O'Leary; committee on improvement of grounds, F. L. Lewton, chairman; N. L. Orne, W. K. Hill, W. A. Orton and Homer Skeels; committee on recreation, Rev. F. W. Smith, chairman;

Mrs. L. Burdett, Mrs. C. Hawley, Miss E. O'Hara and Miss E. Meloy.

The officers of the association are: President, Dr. W. W. Stackberger; first vice president, Miss K. R. Macqueen; second vice president, Herbert D. Lawson; secretary, George J. Burton, and treasurer, Frank B. Linton.

Addresses were made by George S. Wilson and Dr. T. C. Clark. Letters of regret for being unable to be present were read from Supt. of Schools A. F. Stuart, Capt. James P. Oyster, president of the board of education, and George F. Bowerman, librarian of the Public Library.

Mr. Bowerman asked the members of the association to suggest to him the kind of books they desired for the new Takoma library, which is now being built.

Several vocal solos were sung by Miss Allen Miller, accompanied on the piano by Byron Bladgett. A monologue was given by Mrs. M. K. Campbell.

It was decided to make an endeavor to have an eight-room addition made to the building instead of a four-room building. This was decided because of the present rate of growth in school attendance in the suburb.

Absence from school and home study formed the subjects for discussion during a large part of the meeting. That the child should be taught that the school is his business, and that punctuality, regularity and earnest application are necessary was advocated during the discussion.

The necessity for proper study hours and study places for children at home received much comment. It was pointed out that a child who was compelled to

study in a room where a conversation on topics of interest to him was being carried on would not receive the maximum benefit from his study period.

The last meeting of the season of the Special Child Study Club was held last Tuesday evening at 905 P street north-west. The evening was spent in a social manner. Musical numbers were given by Newton Hammer, Misses Ruth Doling, Esther Keats, Blanche Polkinhorn and Edith Athey.

Among those present at the meeting were Mr. and Mrs. Walter B. Patterson, B. M. Murch, Selden M. Ely, Miss E. S. Jacobs, Mrs. Edna K. Bushie, Dr. W. B. Hudson, Mrs. Margaret W. Cate, Miss L. A. Bentley, Miss L. O. Moorman, Mrs. S. P. Johnson, Miss A. E. Sullivan, Miss G. A. Adams, Mrs. M. G. Sillarow, Miss M. Stewart, Miss M. M. Greenwood, Miss M. M. Le Peabody, Miss Ruth Tiffany, Miss Burlingame, Miss Emma Hood, Miss M. L. Murch, Miss Anna Hogan, Miss Johnson, Miss Evelyn Malcolm, Miss Clark, Miss Schroeder and others.

Assistant Superintendent of Colored Schools R. C. Bruce is to address the graduating class of the Georgia State Industrial College at its commencement exercises to be held next Wednesday morning.

A large number of parents were present at the recent "parents' day," held at the Garrison School. Many suggestions for helping the child, on the school to

get the most out of their work were given by the parents by the teachers of the school.

Officers of the home and school association of the school were elected before the close of the present scholastic year according to an announcement made by Principal R. A. Boston of the school.

At a recent dance given by some of the three highest classes of the M Street High School at the home of Miss Elsie Newman, 410 B street southeast, there were present Misses Ray and Thelma Adams, Josephine and Nellie Washington, Ella Thompson, Beatrice Cooper, Pearl Plagg, Josie Browne, Marietta Kirby, Claudia Snoot, Rosebud and Elsie Newman and Messrs. Cato Adams, John White, Nat Brown, Wellesley and Charles Marshall, Mullen, Morrison, Stevens, Smoot, Valentine, Lockley, Waters and Harrod.

**JUDGE DONNELLY'S TRIAL.**

Argument by Special Counsel Miller Will Be Resumed Wednesday.

TOLEDO, Ohio, May 27.—That the offense, if any, in the case of Judge Michael Donnelly, former president of the Ohio German Fire Insurance Company, was the embezzlement of neither money nor check, as charged in the indictment, but was the embezzlement of a cause of action against the banks, is the

basis of the contention for the discharge of the defendant. Argument on the motion that the court instruct the jury to return a verdict for the defendant at the conclusion of the state's case was not completed today and will be resumed Wednesday by W. H. Miller, special counsel for the attorney general.

**New Buildings at Bethany College.**

CINCINNATI, Ohio, May 27.—A contract for the construction of the Ogilby Hall of Agriculture and Science, at Bethany College, Bethany, W. Va., has just been signed. The building is to cost \$60,000 and will contain classrooms, laboratories and administrative offices. It is to be of Tudor Gothic architecture. E. W. Ogilby, who donated this new building, has made the college gifts totaling \$120,000.

**Confesses He Robbed Post Offices.**

LEXINGTON, Ky., May 27.—John Tillman, who claims Cleveland as his home and Cincinnati as his "headquarters," today, according to the police, confessed to having robbed the post offices at Hedges, near Mount Sterling, Ky., and at Junction City, east of Lexington. He was arrested last night after having displayed a large roll of postage stamps in a saloon.

**COOKE TRIAL JUNE 12.**

**Man Charged With Embezzlement From Big Four to Face Accusers.**

CINCINNATI, Ohio, May 27.—Edgar Street Cooke of Chicago, charged with embezzlement following the disclosure of a theft of \$40,000 from the Big Four railway by Charles L. Warriner, its former local treasurer, will face his accusers in court June 12 next. Warriner is in the penitentiary at Columbus and probably will be brought here to testify against Cooke.

Another witness at the trial, it is expected, will be Mrs. Jeannette Stewart Ford, who was acquitted of blackmailing Warriner about a year ago.

**Oil Found in Kentucky.**

CUMBERLAND, Md., May 27.—Rex G. Carpenter of Cumberland, son of Dr. George H. Carpenter, this city, is manager of the new company, to be known as the Millie Bell Company, that has struck oil in Wayne county, Ky. The well is producing about 200 barrels a day. The following compose the new company: Racy Guthrie, John A. Veach, Dr. F. L. Baker, John Bane and Rex Carpenter. Mr. Veach is president of the company.

**DROPS EXAMINING BOARD.**

**Action in Virginia by Head of Educational System.**

RICHMOND, Va., May 27.—The state board of education, in session here today, abolished the state board of school examiners. The work of examining candidates for places as teachers will hereafter be done under the direction of the department of public instruction at a large pecuniary saving to the state.

**Mine Consolidation Opposed.**

LANSING, Mich., May 27.—Arguments were completed today in the circuit court in the suit that has been started by minority interests of the Osceola Mining Company to prevent the consolidation of the Calumet and Hecla and nine other copper mining companies. Counsel for the complainant were allowed a week in which to file briefs, after which another week will be allowed for the filing of briefs for the defense.

**Railroad Wage Scale Settled.**

MOBILE, Ala., May 27.—Vice President and General Manager R. V. Taylor of the Mobile and Ohio announced today that the road's difference with shopmen over the wage scale had been practically settled.
